R 1905-28 dt 11 Dec 43 directs certain instructions re the appointments of

2134 L. Cyano gas charges on fumigating villages

General and Revenue Secretariat | File No of 194 | [App F III–2

Serial No

From the D.P.H.

DO No BE 931/ D 30 9-41

Requests that V.P's be instructed to bear the charges of cyano gas dust and labour where Distt Board Sanitary Inspectors are employed

Submitted for orders

By 20/10

1) The proposal of the Dir of Public Health is to the effect that the village benefitted concerned should meet the cost of the cyno gas dust and the wages of the labourers engaged on cyno gas work, whenever this work is undertaken by the Distt Board Sanitary Inspectors. The Shimoga Distt Board (to the Distt Bd also) have purchased two sets of cyano gas fumigation equipments to be operated upon by the Distt Bd Sanitary Inspectors, who have undergone the required training at the Rural Health welfare centre at Bangalore

It is stated that 20 houses can be cyno gased in one day & one party for is constituted for every ten houses & the cost of each area taken up for cyno gasing including the pay of one Asst Sanitary Inspector will be Rs 4/8/- per day

NOTE—Contn Sheet

Serial No

Till now the District Boards have been attending to the control of epidemics within their jurisdiction at their cost and this is in accordance with the provisions of sec 45 (b) of the District Bds' Act 1926

2) The present proposal means that the village panchayats concerned should bear the expenditure on account of the preventive measures like Malaria or the cost in each case according to the calculation made above would vary, depending on the number of hours, the quantity of granules used and the number of days taken up in carrying out the work There may be some cases of village panchayats which may not have money sufficient to pay for the work after meeting other obligatory charges

3) This would be a fresh item of expenditure on the funds of village panchayats under sec 20 (VIII) of the V P Act, it is the duty of the village panchayat to provide adequate funds for the preservation improvement of public health and under sec 21 (IX) thereof, it would be within the discretion of the village panchayat concerned to provide funds for measures of public safety calculated to promote health in the interest of the residents of the area

2134

General and Revenue Secretariat | File No | of 191 | [App F III—2

Serial No

The expenditure of Panchayat funds on this measure will directly benefit the residents of the area also covered by the above statutory provisions in view of the very slender resources of the Dist Boards, it will not be possible for them to provide out of their funds for this work in the several village Panchayats under the above provisions. Having regard to the above facts, the recommendation of the Dy C [illegible] may have to be accepted under Rule 6 (1) (b) if approved, the Law Dept may be consulted in the matter.

Cyno-gas Charges -- Village Panchayets liability

File No 2134/42 of 194 | General and Revenue Secretariat

To bear the cost of Cyno-gasing in full or even the major portion of it would be beyond the means of an average Village Panchayet The majority of the Deputy Commissioners of Districts who were consulted are of opinion that Village Panchayets with an income of over Rs 300/- per year may be asked to bear 1/2 the cost, the others being wholly exempt I agree with them. A

Returned with compliments.

20/42

Revenue Commissioner.

GOVT LAW DEPT 22 JAN 1942 GOVT OF MYSORE

Hon 2 22-1-42

Submitted for orders of the Hon'ble Minister for Revenue in pursuance of the Rev Commr's orders & issued accordingly

Hon'ble 4-2-42 Minister for Revenue Paras 5 & 6 of note above

As noted in Para 3 of note above, expenditure on Cyno-gassing work is a legitimate charge, Obligatory Charge on the V. Ps' as the guardians of Public Health within their respective areas Where there is no arguing out their liability, the facts, as they stand must dictate

Cyclone Charges - V Ps liability

General and Revenue Secretariat | File No 2134/1/42 of 191 | [App F III—2

Serial No

-- against the enforcement thereof

13 Either Govt have to meet the expense or the Dt Boards, if the V.Ps cannot

The former course would have the effect of shifting the essential responsibility of local bodies not to meet the cost. It would besides involve undue contribution by Govt in addition to the normal claims of the V Ps

A

14 The second course has also to be ruled out as the Dt Boards are themselves not well off financially

The course suggested by the Rev Comm is open to the defects pointed out at 'A' above

15 By way of a practical Compromise however, the consideration of

(1) All the Village Panchayats with an annual income of less than Rs 300/- to meet the cost of the materials only as usual etc without cash Charges

(2) Govt V Ps to meet the full cost

GK 2/42

File No | of 191 | General Section

Serial No

Said reference is invited to para 57 (Page 53) of the V P Manual according to which the duty of control and suppression of epidemics in an area under the village Panchayet is one of the Obligatory duties of the Distt Board & that the measures required in this behalf should be taken by Distt Boards & that the village Panchayets should carry out the orders issued by the Presidents of District Boards in this behalf.

According to the proposal now made by the Director of P. H. & agreed to in a modified form by the Govt it is to the effect that the village Panchayets with an income of not Rs 300/- per year may be asked to bear half the cost of Cyanogassing - which is a measure for suppressing the Plague disease, the others being wholly exempt—

The scheme of Cyanogassing adopted by the Public Health Dept as one of the effective means of controlling or checking plague has been in vogue the very recently and no information is perhaps available

Serial No

as to the exact amount that would have to be spent per year, if it is taken up in a systematic manner on a State-wide scale if that is known, then it would be easy to assess what portion of the expn the village panchayat would have to bear, if it is found to be affordable

'While as pointed out in para 3 supra, there is no legal objection to the levy of this charge on the village panchayats, it is liable to be misunderstood & perhaps evoke criticism of the policy of Govt of the proposals adopted, the Distt Boards, which perhaps feel that their responsibility on this behalf ceases further, if this proposal of the Govt is accepted, it is not known as to who would have to meet the other half of the expn in respect of those persons whose income is above Rs 300/- & of those below Rs 300/- who do not contribute anything

It is submitted for respectful consideration if the cost is below Rs 5000/- for the whole State every year, - whether it may not be met by the Govt, the same being

Sir,

Re: Cyanogas charges for work done by the District Board Sanitary Inspectors in village Panchayats

I have the honour to enclose herewith copies of letter No C 70/41-42 dated 15 9 1941 of the President, District Board, Shimoga and this Office reply to the same on the above subject, stating that whenever the District Board Sanitary Inspectors are employed, the village Panchayats concerned will pay for the cost of the cyanogas dust used and the wages of the labourers engaged for the work

I recommend that Government may be pleased to issue orders that wherever District Board Sanitary Inspectors are employed, the Village Panchayat concerned should meet the cost of the cyanogas dust and the wages of the labourers engaged for cyanogas work

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

Re Cyanogassing Charges

I have the honour to state that from your letter No B E 1047 dated 19th December 1940 addressed to the Secretary to Government Law Department, it is seen that 20 houses can be cyanogassed in one day and one pound of gas is consumed for 10 houses and the cost of each area taken up for cyanogassing including the pay of an Assistant Sanitary Inspector will be Rs 4-8-0 per day

This District Board has purchased two sets of cyanogassing equipment at its cost and arranged for the training of its Sanitary Inspectors in cyano-fumigation as per your instructions

In the above circumstances, I may kindly be enlightened as to how the expenditure is to be apportioned between the Village Panchayats and the Board and the mode of adjustment

OFFICE OF
THE DIRECTOR OF PUBLIC HEALTH
IN MYSORE,
BANGALORE.
Date 17th November 1942
23rd

To
SECY LAW DEPT
Govt

The Secretary to Government,
Law Department,
Bangalore

Sir

With reference to your letter No L 7310, dated 16-2-1942, and subsequent reminders calling for the probable expenditure for one year on account of cyanogasing work for the whole State, I have the honour to state that according to statistics collected 57 Municipalities and 125 villages which have been infected with plague have reported during the past four years There will be some villages which have not reported ard rat falls are not reported at all There would therefore be more villages than those mentioned above

I invite kind reference to this office letter No B E 555, dated 30-8-1941 regarding the fumigation of 57 Municipalities which required attention at a cost of Rs 19,000/- every year

It was proposed to entertain 25 Assistant Sanitary Inspector for fumigating these Municipalities within a period of four months After the completion of these places, it was also proposed that the staff could be utilised for cyanogasing the infected villages and their neighbouring ones during the rest of the year Thus the staff will be kept enaged throughout the year They can also be drafted for fumigation work whenever infection is reported in villages other than those mentioned above

As 125 villages had reported infection during the past four

four years and as for every village infected about five villages around should be fumigated in its neighbourhood, the total number to be attended to will be 625 villages in all Taking on an average that each village has 100 houses the cost of fumigating 625 villages would come to Rs 21,589/- as per details noted below:-

	Rs
Cyanogas	9,375
14 Asst Sanitary Inspectors @ Rs 25/- each p m	1,050
126 coolies @ Rs 0-8-0 a day for three months	5,670
Contingencies	2,000
Travelling Allowance	2,000
Equipment 30 pump @ Rs 32/each	1,344
Spares	150
Total	21,589

This estimate is only for a period of three months The plague season may extend for a longer period and the staff may have to be continued for that period, the cost involved would have to be correspondingly increased particularly in view of the fact that infection is not reported from some villages and rat falls are not at all brought to our notice as stated above. As cyanogasing is taken systematically, it is very likely that even reporting of rat fall will follow

The cost of cyanogasing 57 Municipalities as per this office proposal submitted in this office No B F 555, date 30-8-41 is Rs 19,000/- The entire amount excepting Rs 3,410/- (equipment and contingencies) is recoverable from the local bodies

I may

I may state that there are 16,000 villages in the State all of which need not be fumigated The infected villages and their neighbouring ones need be attended to

I have the honour to be,

Sir,

Your most obedient servant,

DIRECTOR OF PUBLIC HEALTH.

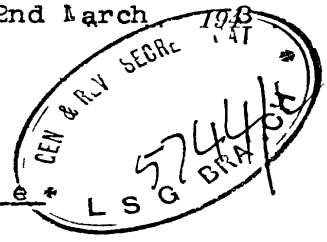
Bangalore, dated 22nd March 1943



To

The Secretary to Government,
Law Department, Bangalore.

Sir,

I have the honour to state that as plague broke out in Nanjangud Town, the President of the Municipality was advised in this office letter No B E 3779, dated 16-2-1943 to get the town cyanogassed

A copy of letter No. H C 102, dated 8-3-1943 addressed to the Deputy Commissioner, Mysore, by the President, in this matter is enclosed for information of Government and to state that inspite of the circulars issued by the Government to all Presidents of Municipalities to allot a certain amount in the budget in this behalf, the President, says that no provision has been made in the budget for 1942-43

I request you to be so good as to issue instructions to the local bodies through the Deputy Commissioners that the money may be provided for the important purpose of cyanogas as originally ordered in Government Order No O M L 300-320/L B 94-40-5, dated 16-7-1941

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

NR 22 3

Letter No H C 102/42-43, dated 5th March 1943 from the President, Town Municipal Council, Nanjangud, and a copy forwarded with compliments to the Director of Public Health in Mysore, Bangalore, for information

---

Subject - Cyanogas work at Nanjangud Town

I have the honour to state that the letter No B E 3779, dated 16-2-1943 received from the Director of Public Health in Mysore, Bangalore, suggesting cyanogasing to Nanjangud town to arrest the spread of plague was placed before the Municipal Council on 27-2-1943 and the Municipal Council have accepted the suggestion

But it is found from the reports that there were only 6 stray cases resulting in 4 deaths Inoculations and other precautions have been properly taken There are no signs of the epidemic spreading further Hence the costly affair of cyanogasing the whole town may be put off at present

This town was cyanogased last year at a cost of about Rs 600/ and the question of payment of the e cess amount over the budget provision under this head is still under correspondence No provision has been made for this work in the current year's budge for 1942-43 Since the finance of this Municipality does not permit any extra expenditure a recommendation may kindly be made to the Government to pay a special grant ~~sk~~ for this purpose if this work is fourd necessary

6. Correspondence ending with letter No B.E 2171 dated the 23rd November 1942 from the Director of Public Health in Mysore requesting that instructions may be issued to the concerned Village Pancha-

Panchayets to meet the cost of cyano gas dust and the wages of the labourers employed for the work wherever the District Board Sanitary Inspectors are employed for meeting this expenditure etc.

Order No. 10905-28 in Hlth
Dated, Bangalore, 11 ~~April~~ May 1943.

Instructions have been issued in the Government Order dated the 16th July 1941 re- the provision to be made in the annual budgets of the Local Bodies viz., District Boards and Municipalities for meeting the charges of cyano gas fumigation as a measure of prevention of Plague.

2 Questions have been raised by the Presidents of certain District Boards as to the proportion in which the expenditure on the said measures should be borne by the District Boards and the Village Panchayets. The Director of Public Health and the Revenue Commissioner have also made certain suggestions in regard to the proportion of the expenditure being met by the Village Panchayets

3. Government have therefore examined the standing orders on the subject and the existing arrangement ~~in vogue~~ in the several local bodies in the State and they are pleased to issue the following instructions in supersession of the existing orders on the subject.-

(1) Under the provisions of the several Municipalities Acts of 1933, it is the primary duty of the Municipal Council concerned to adopt measures for the suppression of epidemics in the area in its jurisdiction. Hence the entire cost of the preventive measures to be undertaken in the shape of inoculation, disinfection and cyano gas fumigation should be borne by the Municipal Council concerned and necessary provision made therefor in its annual budgets. The approximate amount to be provided

provided for by each Town and Minor Municipal Council per year is given in the annexure to the Government Order dated the 16th July 1941 read above The Deputy Commissioners are requested to see that these amounts are invariably alloted in the annual budgets of the Town and Minor Municipal Council and the amount is also placed at the disposal of the Public Health Department for taking timely precautionary measures, and to prevent Plague infection.

(2) In regard to the District Boards, it is their primary duty under Section 45 (1) (q) and of the District Boards Act to attend to measures necessary for the Public Health, Sanitation and other local services affecting different Panchayets and control of sanitation during the Jatras or Fairs and festivals. The District Boards have been accordingly attending to this duty conrected with the prevention of Plague Epidemics by meeting the cost of the establishment for inoculation etc. The District Boards will accordingly make a provision of Rs 2000/- per annum in their budgets in this behalf in accordance with the standing orders and continue to meet this expenditure in respect of the villages under their jurisdiction The Village Panchayets need not bear any portion of the expenditure in this behalf, as already laid down in para 57, page 53 of the Village Panchayet Manual-1938 Edition. The Presidents of District Boards are requested to make the amount available to the Director of Public Health on requisition for undertaking the cyano gas measures in the villages within the jurisdiction of the District Board.

3. During the period of Epidemics when the

the Plague actually ~~brakes~~ break, out, the Government will bear the entire expenditure.
